About this webinar

This **free 4-day virtual conference** will provide evidence-based lectures from highly respected international experts on best practice for the peripheral vascular disease (PVD) patient, along with a comprehensive review of PVD aspects, covering peripheral artery disease, venous disease and lymphology. And update on the latest evidence in epidemiology, diagnosis and management.

The extensive 4-day programme featuring eminent international speakers creates a unique multidisciplinary virtual learning experience for physicians, surgeons and interventional radiologists.

CPD learning applied for all 4 days.

The Royal Society of Medicine is proud to be joint partners with the European Society of Vascular Medicine for this webinar.
